

2nd UCLG World Congress Announcement

The 2nd UCLG World Congress will take place on 28-31 October in Jeju, Korea. Local and regional leaders from all over the world will be coming together in Jeju to set the international agenda of local governments.

We have a massive challenge ahead of us and it demands the pooled expertise, experience and enthusiasm of members of United Cities and Local Governments and its partners in Jeju to focus the international communities' attention on the exemplary performance and unquestionable potential of local governments in resolving problems affecting everyone.

The theme of the congress "Changing cities are driving our world" captures both the dynamism and the crucial role played by local authorities of all sizes. Our aim is to focus on some key aspects of global governance where we feel the involvement of local authorities is essential:

- Cities the future of humanity; addressing climate change
- City Diplomacy: Local Governments building peace
- 2015: a better world is possible. The Role of Local Government in Global Governance

The official website of the 2nd UCLG World Congress allows you to proceed with online registration. Click on this link to register: www.uclg2007jeju.org. The deadline for early registration is 30 September 2007.

To benefit from discount flights to Jeju, please go to the Star Alliance website and quote the event code: 0Z020S7.

Contact the UCLG world Secretariat in Barcelona at info@cities-localgovernments.org for further information.
