

1 Job seeking

1-2 Employment consultation and employment introduction

(1) Public employment security offices (Hello Work offices)

These are national organizations which carry out employment consultation and employment introduction for free. The Hello Work offices are connected through a computer online system, allowing data of job advertisement from all over the country to be viewed. You can also receive consultation about part-time jobs.

It is a good idea for persons who can speak Japanese to use their nearest Hello Work office. People who are not proficient in Japanese may also be able to make use of Hello Work offices, but they should confirm this over the telephone before going.

When registering as a jobseeker, your status of residence and period of stay will be confirmed, so be sure to bring both your passport and Residence Card or special permanent resident certificate with you.

Some Hello Work offices have interpreters.

List of offices for foreigners:
