The amounts of the employee's pension lump-sum withdrawal payment

Total period insured	Benefit amount (rounded off to one decimal place)
Between 6 and 11 months	Your average standard remuneration* × benefit multiplier {(contribution rate** × 50%) × 6}
Between 12 and 17 months	Your average standard remuneration × benefit multiplier {(contribution rate × 50%) × 12}
Between 18 and 23 months	Your average standard remuneration × benefit multiplier {(contribution rate × 50%) × 18}
Between 24 and 29 months	Your average standard remuneration × benefit multiplier {(contribution rate × 50%) × 24}
Between 30 and 35 months	Your average standard remuneration × benefit multiplier {(contribution rate × 50%) × 30}
36 months or more	Your average standard remuneration × benefit multiplier {(contribution rate × 50%) × 36}

* Your average standard remuneration = the total amount of your remuneration and bonuses for the months which constitute the basis of your total insured period, divided by the number of your insured months.

** In this chart, the contribution rate of October of the year prior to the year in which the month of your final payment fell (the "month of your final payment" being the month prior to the month in which the day of your ceasing to be qualified as an insured person fell) is for purposes of convenience referred to as the "contribution
