

# Gifu MIRAI's: Learning How to Live Through Real Experiences

Gifu City, Gifu Prefecture

---

**Situation (background, aims, etc.)**

We are promoting Gifu MIRAI's, an inquiry-based learning project that aims to transform the entire city into a classroom where children can learn from its people, goods and experiences. We believe this project will help them establish a solid foundation, and will also help us nurture children who can thrive with a global mindset rooted in their love for Gifu City, regardless of where they live in the future

---

**Details (project outline, etc.)**

- The project involves the following five main initiatives:
- 1) Implementation of the Gifu MIRAI's Channel
  - 2) Utilisation of the Gifu MIRAI's Portal Site
  - 3) Creation of opportunities to learn about Gifu City, both directly and experientially
  - 4) Development of a Gifu MIRAI's Supporters Registry
  - 5) Curriculum management support

---

**Results (features and innovations, future developments, etc.)**

- The project promotes inquiry-based learning and has created more opportunities for students to learn from the city's people, goods and experiences.
  - An increasing number of schools are engaged in curriculum enhancement.
  - △ One challenge is that the utilisation rate of various project features varies from school to school.
-
