2 Extention of period of stay, change of status of residence, application for permission for permanent residence, permission to engage in an activity other than that permitted by the status of residence previously granted, re-entry permit, and acquisition of status of residence

# 2-6 Permission to engage in an activity other than that permitted by the status of residence previously granted

If, for example, a foreign college student wishes to take a part-time job, he or she must get permission to do this. (However, foreign students [4th year, 5th year or post-graduate students only] do not need to get permission to do work as a teacher assistant, or research assistant in the university or college they are enrolled in.)

If a person whose status does not allow him or her to work wishes to undertake activities to earn an income, such as a part-time job, he or she must acquire permission to engage in an activity other than that permitted by the status of residence previously granted from his or her regional immigration bureau. If you are a student or dependent and working part-time, there are limitations on work content. If you engage in employment which is not with the scope of activities permitted by your status of residence, this will constitute "illegal work" and you will be subject to penalties. For details please contact your nearest regional immigration bureau.
